

Your Partner for Custom Fiber Assemblies

North America Fiber Optics

Exclusive Distributor for

Made in Taiwan

TRUSTED BY

About

North America Fiber Optics supplies high-quality custom fiber optic cable assemblies designed for telecommunications, industrial automation, utilities, data centers, transportation, and harsh environments. We deliver cables built to specification, fully tested, and ready for deployment with dependable lead times.

We are the exclusive distributor of Coretek Opto, a leading manufacturer of fiber optic transceivers and optical components. Coretek's portfolio ranges from legacy optical modules to high-speed transceivers up to 800G, supporting telecom, data center, and network infrastructure deployments.

APPLICATIONS

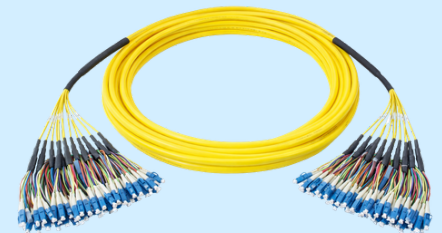

- Telecommunications & Broadband
- Data Centers & Network Infrastructure
- Industrial Automation & Control Systems
- Utilities & Energy
- Mining & Harsh Environments
- Transportation & Infrastructure
- Broadcast & AV Systems

FIBER TYPES

- Singlemode (OS2)
- Multimode (OM1, OM2, OM3, OM4, OM5)

CABLE CONSTRUCTIONS

- Tight Buffered
- Loose Tube
- Breakout Cable
- Distribution Cable
- Ribbon Fiber
- Armored & Ruggedized

CONNECTOR OPTIONS

- LC, SC, ST, FC
- MPO / MTP multi-fiber
- Specialty connectors
- UPC & APC polish
- Fan-out & breakout assemblies

CUSTOMIZATION

- Custom lengths & staggered breakouts
- Color coding & labeling
- Serialized barcodes & asset identification
- Private branding & OEM labeling
- Custom packaging & project kitting
- Chemical-resistant & LSZH jacket options
- Pulling eyes & installation kits
